THE GREAT MORTGAGE FRAUDS.

It is remarkable that the exposure of the extraordinary crimes of James E. Bedell should be so soon followed by the discovery of a precisely similar series of frauds and forgeries committed by another trusted agent. Mr. WILLIAM R. FOSTER, jr., has been the counsel of the Produce Exchange and a member of that body for a number of years. He is absent from the city and no one seems to know where he is. Simultaneous with his departure it is found that mortgages to the large amount of \$168,000 are forged and fraudulent, and have been palmed off on the Gratuity Fund of the Exchange as genuine.

These disclosures may well startle persons who hold this description of security, and no doubt the Register's office will be kept busy for some time examining deeds and mortgages. The facility with which the frauds seem to have been perpetrated is remarkable. Yet it is evident that very slight and ordinary care on the part of investors would lead to their detection. The great moneyed institutions of the city, which losn millions on bond and mortgage, make their own investigations, and trust to no single individual agent. With ordinary prudence in such transactions there can be no danger of imposition.

SELECT THE AUDIENCES.

Mr. BLAINE will speak at the Polo Grounds to-morrow. It is said that he is to deliver three speeches in this city during the campaign. He is pledged to tell our people all about labor in Europe, and especially about the sufferings of working men and women in England.

If Mr. BLAINE is to do missionary work for Protection, his addresses should not be heard only by the party leaders and ward politicians. The Committee of Arrange. ments should send tickets of admission to the first meeting to the wretched workingwomen in the cellars and garrets of the city tenement-houses, the white slaves who toil for "protected" manufacturers from early on until midnight shameful pittance, barely sufficient to support life.

To the second meeting the Committee should invite the alleged 100,000 unemployed men and women in the city who are willing to work but fail to find employment, first, because the "protective" duties on raw material cripple our own manufacturing, and next, because those "private affairs," the hateful Trusts, in limiting production to raise prices, close many of their factories and throw thousands out of work.

To the third meeting the committee might invite the unfortunate workers in mines and factories whose wages have been reduced to starvation point by their "protected" employers. But this would scarcely be of any practical utility, inasmuch as the Iron Kings, the Coal Barons and the millionaire manufacturers have imported so many cheap contract laborers from foreign countries that such an audience would be unable to understand the speaker. So the third address might be enjoyed by those who believe that Trusts are private affairs with which no one has any particular right to interfere, and who are ready to shout themselves hoarse in honor of Premier BLAINE.

A VICTIM OF CIRCUMSTANCE.

Manking is often the victim of circumstances. When a young husband and father sails for Europe alone, leaving his family behind him, and as soon as the steamer gets fairly outside and the pilot has sailed away, finds a lone and interesting female acquaintance on board, who throws herself, not into his arms, but onto his generosity, and asks protection during the voyage, what is he to do? He cannot get rid of her. There is no stopping-place or half-way house where he can have her set ashore. He has before his eyes the horrible vision of a scandal, a heart-broken wife and intermeddling

" seiends," who roll the delicious morsel of gossip round their tongues with epicurean relish. He might jump overboard or throw his troublesome fellow-traveller into the sea. But the former would be folly and the latter

Now, just such an adventure or dilemma

Europe. A reckless young woman whom he had employed as a typewriter took a fancy to go to Europe, bought a passage, got on board secretly, and on the first day out made her presence known. The unfortunate and involuntary chaperon could only advise his unlooked-for fellow-voyager to put herself under the care of the stewardess and to return home by the next steamer.

Miss May DOUGHERTY, the thoughtless traveller, determined to follow this advice. She cabled her parents, who were ignorant of her whereabouts, as soon as she reached the other side, and is to return at once.

Thus ends a romance which has been by no means a pleasant one for its principal characters, and which might have been attended by serious consequences. When Miss MAY DOUGHERTY goes to Europe again let us hope it will be under more propitious cir-

He proposes to "bounce" BARNEY BIGLIN, who has so long made money out of the handling of the immigrants' baggage, and to employ in the Garden the responsible New York Transfer Company which will render better service at less cost. Mr. STEPHENSON has been instrumental in breaking up the Railroad Pool and in stopping Mormon immigration, which has been favored by Commissioner Forrest.

MR. ROURKE'S VIEWS

The Issues as They Appear to a Republican "B'hoy."

He Thinks Hill Is the Strongest Man in the State.

Cleveland's Majority in This County May Reach 55,000.

Bernard J. Rourke was found by an Even two World reporter at his big saloon in Forsyth street.

To him the reporter said : "The opinion of practical politicians on the stirring questions now uppermost in the mind of all Americans is more valuable than that of the man who is not in he swim. Therefore I ask you, how is the approaching national election going ?" Mr. Rourke, who wields a mighty powerful

hand in the Republican politics of the Eighth Assembly District, replied promptly: "Harrison is going to win." Then smilingly You know most folks believe as they want

Then Mr. Rourke said something which he didn't want the reporter to print, and, in deference to his wishes, it is omitted.

"What of the tree whiskey plank in the Republican platform?" asked the reporter. I am outposed to that, Whiskey is a luxury and should be taxed. But you and I know that it won't make much difference who wins; whiskey will never be free."

"Will you carry New York State?"

"I think Harrison will get this State."

"What of Warner Miller for Governor?"

"Hill is the stronget man in this State. I think he will win. Some papers who favor

High license would make a monopoy and I am opposed to mone polies of all kinds."

"What of the action of the United Labor party's State convention? It indorsed Mil er for Governor."

But Tanmany Hall would win with Judge Dugro or Grant or O'Donoitue.

"What, in your judgment, will be the vote

in this city?"
"Well, I think Cleveland will get about 50,000 or 5,000 majority in New York County, though our folks are talking that Harrison will get 110,000 votes out of a registration of 250,000. Hill will get fully 10,000 more majority in the city than Cleveland."

What of the Irish vote?' "I don't think the frish Blaine vote will change much. I think it will go pretty straight for Harrison, athough the Irish In-dependents have come out for Cleveland. "Devoy and Ford and the rest of the old

"Now, Mr. Rourke, you have said that you believed Cleveland's majority in New York County would be 55,000 and Hill's 65,000, but you say the managers claim 110,000 votes for Harrison. How do von reconcile those points? If Harrison gets 110,000 there will be at most only 130,000 or 140,000 left for all the other candidates."

"Oh, well, I don't go into figures like that. I look about and see how things are looking. I know what the majority was last year and the year before. I didn't say I thought Harrison would get 110,000. May be those who have figured that out know better than I do, i think Hill is sure to be elected because he is the most popular man in the State. I think he is stronger than Cleveland."

THE WORLD ERIDAY STENING, NEED OMBER 29, 1888.

To the Editor of The Evening World: "Jersey City Heights" has got the correct idea in her letter on 'Is Marriage a Faiture?' and from a husband's standpoint I indorse every word therein contained.

Marriage can be made either a blessing or a curse, with no middle course. To me it was the latter for nearly the firs. five years of my married life, partially on account of the in-termeddling of the families on both sides and partially on account of my own bad habits and consequent lack of proper attention to my wife.

For the past four years my domestic affairs

have been entirely revolutionized. I being now far removed from all disturbing ele-ments, and living only for my wife and chil-dren, whom I have rea on to look upon as nearly perfect as can be, and on the r part I know the feeling is reciprocated to the fullest extent.
Mutual confidence and forbearance be-

tween husband and wife is the grand secret of success. Consequently married lifeto me, for the past few years, has been full of bless-ing, and the only life that I consider worth

A Handsome, But Sceptical Tramp

In your editorial you say a man who lives bachelor's life certainly is not a success. I beg to differ with you. I am a bachelor of for y and certainly as happy as the average married man, and much more so than many who have charming and talented wives and lovely, interesting children.

The wives, by their extravagance, selfishness and conceit, and the children, by their love of dress, pride and sometimes bad temper, render the unfortunate busband and fa her anything but a happy man. Where there is one family united and pulling together, thereby making the man who is its head perfectly happy and contented, there are dozens that cause men to take their hat and leave home abruptly, so as to have peace and quiet.

I know there are a great many very, happy I know there are a great many very, happy homes in this country, as well as abload; but I sincerely believe that in the majority of cases marriage is not what it is cracked up to be. I honor and respect a good housewoman, an interesting, good-tempered child, and a moral, home-loving family man, but I am sorry to say I think hey are like angels' visits, "few and far between."

The Handbome Tramp.

It Depends on Conditions.

Marriage is a "condition, not a theory, in the words of Grover Cleveland. To make it a happy condition there must be character developed on the part of both husband and wife. And the proportion of happiness, all wife. And the proportion of inappiness, an other things being equal, will be in direct ratio to the development of their characters. The failure of marriage in the great majority of cases is not due to the rite as instituted, as Mrs. Caird would have us believe, but to the want of stability of the contracting parties. The same applies to every department of life. There are failures in averything except on the same applies to every

everything around us.

The great mass of the people are ruled by circumstances, while the few make circumstances contribute to their happiness as well as their success,

Entering marriage with high ideas and lofty purposes and with a determination to make it the highest and noblest condition of

devoted manhood and unsulfied womanhood, the chance of failure is not very small. I am myself a young man of good expecta-tions, minus bad habi's, with no prententions to the dude, and will perhaps one day change my estates if I can get my high ideal of a woman to condescend to become the life Dartner of so commonplace an individual.

What can a man wish for more than a good little wife, a pleasant home and a sweet little group to greet him when he comes from a good day's work? I often see this and enjoy it as much as if it was all for me. Further, I find a woman of the right sort has been the making of

of the right sort has been the making of many a good man.

I fail to see where the failure comes in. If such be the case, it is often the man who is at fault. He likes to go out alone, to his lodge or elsewhere. The wife expects him to take her out on that evening. She is disappointed, and all of it is, of course, wrong and war may be declared. Let this be for the moment and make up and things will run smooth; but do not repeat it.

Let man and wife share their pleasures and tribulations together, and they will find themselves a happy set.

So, young men, do not let this word failure discourage you. Seek for the right one, learn to know her well, try and do all you can to please her, and you will be happy.

Commending the Kindred Topic,

To the Editor of The Evening World: "Is Bachelorhood a Success?" suggests the Evening World as a theme of discussion, being a di version from the query ' Is Marriage a Failure ?"

Many agree, no doubt that the controversy Many agree, no doubt that the controversy on marriage has not and would not be shared by those blessed with isappy homes and not wishing to wake the sacred relation in life a subject of public discussion.

They are justified in remaining silent on that topic, but on a discourse such as is now suggested by our favored evening paper there can be no delicacy of feeling, only a will to join in giving a free and frank expression of thought, and advice to be regarded according to its worth. A free exchange of opinions will do much as a director to the proper course.

Is This True, Bachelors ?

To the Editor of The Evening Wartity Every old bachelor may think marriage a failure until one day his fate will bring him face to face with a girl who is not beautiful, who does not know how to superintend a household, but who can support him. An affix to her name, which will enable him

to retire from business, which is so tedious to him, will be a much greater attraction than beauts. But, as these girls are rare crea-tures nowadays, men prefer to remain old bachelors. A FEMALE BACHELOR.

SEPECIAL TO THE EVENING WORLS, JACKSONVILLE, Fla., Sept. 28,-The figures seem to show a slight abatement of the yellow fever in this city, but when it is reflected that there are not more than seven to eight thousand persons remaining here and that 2,450 of them have already been down with

This is because the colored populations at and fail to follow the directions or the physicians, eating impunently and not takant and fail to follow the directions of the physicians, eating impudently and not taking proper care of themselves. Then, too, the colored people have a theory of their own as to how to light the disease. They do e themselves at the first appearance of the cisease, taking enough easter oil and quinine to use up a white person and then sweat themselves by wra ping in heavy blankets and lying by a hot fire. This plan is frequently successful, however.

The Cubans and Italians, who have had much experience with the disease, have a secret remedy of their own, and look with contempt on the system of the physicians

Mr. King-Hall, THE WORLD special corre and Aing-Hall, The World special correspondent, bassed a good night, and is doing nicely. He has never for an instant lost his grasp on life and interest in what was going on about him. The greatest hindrance to his speedy recovery will be his uneasmess and desire to be up and about his work again.

It probably looks singular to Northerners that the authorities here should be so anxious to keep out people irom other points. A to keep out people from other points. A guard of 200 armed men now surrounds the

Money Still Pouring in for the Comfort the Stricken Southern People.

The blanks sent out by THE WORLD amon the clerks and other employees of big business places are constantly coming back with grailying additions to the yellow-fever relief fund. The grand total of contributions to the paper's fund to-day reached the sum of \$3,650,36.

Very successful were the various performances tendered yesterday and last evening for the benefit of the fund. Distinguished thea re parties attended the matinees at Wallack's and the Casino. The "Nadiy" per-formance nested over \$1,000, and the pro-ceeds at Wallack's were estimated at \$2,100.

INSPECTOR STEERS'S DAY.

Congratulations and Presents on His Thirty fifth Wedding Anniversary. When Inspector Steers reached his office

Police Headquarters this morning he found on his desk a choice collection of flowers, including dahlias in every color from the Mount Hope farm of Sergt. James K. Price. Other and valuable gifts were sent to Mrs. Other and valuable gifts were sent to Mrs. Steers, including flowers from Mr. and Mrs. Otto Mearer, flowers and bronzes from their son-in-law, Charles H. Holland, flowers from Leo Schlessinger, silver from Jacob Leversburg, flowers from Capts. Carpenter, Allaire and half a dozen other captains, silver from Supt. Murray, and other pleasing gifts. All this was in honor of Inspector and Mrs. Steers's thirty-fifth anniversary of their wedded life. This morning the Inspector surprised Mrs. Steers by presenting her the deed of the new Queen Anne cottage on One Hundred and Fifty-second street, which he bought for her. The deed was inclosed in a beautiful hammered silver ca-ket.

There will be a happy gathering at the Steers house, on West One Hundred and Twenty-sixth street, near Tenth avenue, this evening, when the popular official will enjoy the set of the best of the buller of the set of the s

Collector Magone to Reconsider the Cases

The cases of two of the Mormon immigrant families, those of Nicholas Egli and Herminie Leuwen, were this morning referred back to Collector Magone by the Commissioners of Emigration, Supt. Jackson sending the affidavits to the Collector, who may revoke his order for their return. Both Egli and Leuwen have railroad tickets for Utah, and have made oath that they have money and will not be a public charge.

Under such circumstances it is not thought likely the Collector will cause their return to Europe, as it would be a violation of the law to do so and would render him or his bondamen personally liable. The Government itself cannot be sued. The cases of two of the Mormon immi-
